 - Bilans de campagnes: ananas, avocat, banane, fruits à noyau, agrumes, melon, tomate...
- ➔ Etudes diverses: baromètre CGI, études CREDOC

After avocado, grapefruit and table grapes, *this month's FruiTrop FOCUS series is devoting a fourth volume to the international lemon market. In nearly 140 pages, the CIRAD market watch focuses on the main issues of this sector and provides professionals upstream and downstream in the chain with tools to help in their strategic decisions.*

And in addition, FruiTrop has pleasure in announcing the launching of a new series in September: FruiTrop THEMA. This is designed to form a link between the academic world and that of business so that the two can hold discussions and work together on questions of society, subjects that are becoming topical, etc. The first issue is devoted to the socioeconomic effects of value chains (160 pages, two editions—French and English). A special launch offer can be found at the end of this issue.

Finally, as every summer, FruiTrop is publishing statistical records. Details of annual imports of 33 fresh fruits and vegetables to EU-27 (intra and extra-community movements) are provided for 2011 and 2012. As always, the year-book has been compiled in partnership with the CSIF (Chambre Syndicale des Importateurs Français de fruits et légumes).

This document was produced by the Markets News Service of the PERSYST department at CIRAD, for the exclusive use of subscribers. The data presented are from reliable sources, but CIRAD may not be held responsible for any error or omission. Under no circumstances may the published prices be considered to be transaction prices. Their aim is to shed light on the medium and long-term market trends and evolutions. This publication is protected by copyright, and all rights of reproduction and distribution are prohibited.

Source and methodology

All the figures published here are from European customs sources published by Eurostat.

Observation

1. Customs statistics make a distinction between intra and extra-European imports. Intra-European imports report trade and do not correspond to the real quantities available (double accounting with extra-EU imports is possible). Extra-European imports concern imports to the European Union from third countries (EU entry points).
2. Quantities from extremely remote regions (the four French overseas departments, Madeira, the Canary Islands and the Azores) have not been included in community imports since 1997.
3. The European Union had :
 - 12 member-countries: until 1994,
 - 15 member-countries: from 1994 to April 2004,
 - 25 member-countries: from May 2004 to December 2006,
 - 27 member-countries: from January 2007.

The 2011 and 2012 data provided in this issue cover EU-27.

4. All quantities are in tonnes.
5. The differences that may appear between the 2011 data published in the July-August 2012 issue of FruiTrop (No.202) and the 2011 data in the present issue result from later readjustments by the European statistical services.
6. Country codes according to the official EU norm:

AT: Austria	ES: Spain	NL: Netherlands
BE-LU: Belgium-Lux.	FI: Finland	PL: Poland
BG: Bulgaria	FR: France	PT: Portugal
CY: Cyprus	HU: Hungary	RO: Romania
CZ: Czech Rep.	IE: Ireland	SE: Sweden
DE: Germany	IT: Italy	SI: Slovenia
DK: Denmark	LT: Lithuania	SK: Slovakia
EE: Estonia	LV: Latvia	UK: UK
EL: Greece	MT: Malta

Socio-economic effects in value chains

What are the social consequences of changes enacted in the value chains, especially when they involve large international agricultural product industries? How can we anticipate the results of changes in technical procedures, supplier, work organisation, distribution of revenue generated, etc.?

Researchers from French research centres (Cirad, Inra, Irstea, SupAgro, and University of Montpellier I) and consultants (Epsil'Hôm, CEP) set out over 100 pages their methodology and practices for assessing socio-economic effects.

Publication available in French and English

Release: October 2013

Price: EUR 40
