# Statistics 2018 and 2019 fresh fruits and vegetables European imports

## Source and methodology

All the figures published here are from European Customs sources published by Eurostat.

### Observation

1. Customs statistics make a distinction between intra and extra-European imports. Intra-European imports report trade and do not correspond to the actual quantities available (double counting with extra-EU imports is possible). Extra-European imports concern imports to the European Union from third countries (EU entry points).
2. Quantities from EU outermost regions (the four French overseas departments, Madeira, the Canary Islands and the Azores) have not been included in Community imports since 1997.
3. The European Union had 12 Member States until 1994, 15 Member States from 1994 to April 2004, 25 Member States from May 2004 to December 2006, 27 Member States from January 2007 to June 2013 and 28 Member States from July 2013.
4. All quantities are in tonnes.
5. The differences that may appear between the 2018 data published in the July 2019 issue of **FruiTrop** (No.264) and the 2018 data in the present issue result from later readjustments by the European statistical services.
6. Country codes according to the official EU norm:

AT: Austria	EL: Greece	MT: Malta
BE-LU: Belgium-Luxembourg	ES: Spain	NL: Netherlands
